Research Methodology

Research Definition

- The Global Small Satellite Market Report comprises of the study of various aspects of Global Small Satellite Market and forecast until 2021. Global Small Satellite Market has been segmented on basis of Types (Nano Satellites, Micro Satellites and Mini Satellites); By Application (Earth Observation & Meteorology, Technology Demonstration, Broadcasting & Telecommunication, and Scientific Research & Exploration), By End User (Commercial, Civil and Government, Military and Surveillance), By Region – North America, Europe, APAC and ROW

Data Analysis and Interpretation

- Our historic market trend has been figured out by various paid databases which was further triangulated with inputs and insights from industry experts, companies and stakeholders, through primary research (manufacturers, marketing managers, others). Back-of-the-Envelope calculation for the market estimation has been made through proper understanding of the market as well as future business strategies of the companies operating in the market.

Azoth Analytics has conducted quantitative as well as qualitative research to gather market insights such as market sizing, market segmentation, recent trends and developments and competitive landscape. Our team has conducted extensive primary surveys by reaching out industry experts across the supply chain of the small satellites market.

For Forecasting purpose we have accessed some of the paid databases such as Bloomberg, Reuters, Factiva, Hoovers etc.
